

HOW TO PUT YOUR CHILD 2 YEARS AHEAD OF THEIR AGE

Independent research shows that children who attend InsightKIDs are ahead of their peers by up to 2 years. They are better able to communicate, socialize, manage their emotions and adapt to new environments.

WHAT IS INSIGHTKIDS?

InsightKIDs conducts various programs to cater to discerning parents seeking to stimulate and boost their child's overall development.

INSIGHTKIDS COMPLETE BRAIN AND CHARACTER DEVELOPMENT PROGRAM utilises a holistic approach to maximise IQ and EQ by stimulating both the left and right brain. Ages 2 -12 years.

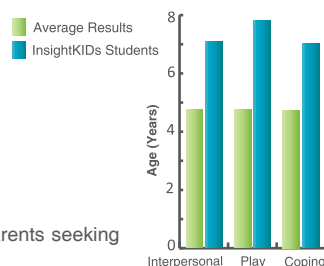

HOW WELL DO YOU KNOW YOUR CHILD?

Using cutting edge data on neuroscience, psychology and child development, InsightKIDs identifies your child's brain dominance to customise a program specifically tailored to build his or her Analytical, Creative, Social and Emotional Intelligence. We provide the signposts to help your child in their roadmap through life.

WHO ARE WE?

Consultants and Clinical Psychologists with backgrounds in psychology and education are at hand to provide customised teaching and constant feedback to ensure your child reaches their full potential.

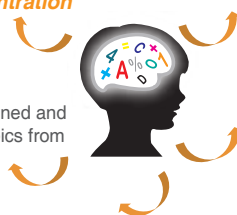

WHAT DO WE DEVELOP?

DEVELOPING A WELL-BALANCED CHILD

During each session, the InsightKIDs program incorporates a variety of interactive activities and the Amazing World Curriculum in a structured experiential learning environment. Your child's:

Analytical skills, memory, concentration and organization will be enhanced, improving thinking and information processing skills.

General knowledge will be strengthened and curiosity stimulated through thematic topics from **InsightKIDs Amazing World Curriculum**.

Confidence, communication and expressive abilities will be developed through **emotional development and character building**.

Categorization and strategic thinking will be built through **mind mapping exercises**.

Creative thinking is enhanced to develop the ability to generate ideas, visualize and invent.

TESTIMONIALS

"Emotional Intelligence is vital and will determine a child's success and happiness in life. The EQ program offered at InsightKIDs has been thoroughly researched and created with specific goals in mind."

Ranita Rajandram, Psychologist BSc Psychology, MA, Child Development, MPH Public Health, Boston, USA

"InsightKIDs explores a child's development as it relates to personal strengths, learning and problem solving. The brain exercises are based on the latest neuroscientific research and are also designed to engage the child creatively."

Victoria Petrus, Consultant MSc Science Education and Information and Communication, Malaysia

"Since attending InsightKIDs, we have seen a great improvement in Sean's social skills and his ability to express himself. He has also taken a huge interest in his surroundings - thanks to the widespread topics taught at InsightKIDs. He enjoys attending the sessions and has made many friends there. It is truly a great place for children to develop their overall potential."

Eliza, mother to Sean Lai (5)
